	11:00AM Worship
Tuesday, January 30	7:00PM Session
Wednesday, January 31	7:00PM Bible Study

Sprinkle and split

A sprinkle of pepper and a dab of soap illustrate a big concept from God's Word.

What you need:

- Shallow dish
- Water
- Black ground pepper
- Toothpick
- Dish soap
- Bible

What you do:

1. With the dish on a table, fill it halfway with water. Don't jiggle the dish.
2. Sprinkle pepper on the water.
3. Dab the toothpick into a drop of soap. Then touch its tip to the center of the water and observe.
4. Read Psalm 103:8-12. How does this experiment illustrate God's forgiveness?
5. Explain the science behind this experiment: The soap disturbs the water's surface tension. The soap molecules don't want to interact with the water. This repels the water molecules from the soap, causing the floating pepper to also move to the sides.
